

# INVESTMENT OPPORTUNITIES AVAILABLE IN KITETO DISTRICT COUNCIL

## 1. PROCESSING INDUSTRY IN LIVESTOCK PRODUCTS.

Kiteto is the area of its kind in our Country with the status of abundant resource of livestock; this led us to be the first-class in the Open Livestock Market operations which are found in our District whereas a range of animals like Chickens (total 141,472), Sheep (total 161,612), Goats (total 448,106), Cattle (total 484,833) for butchery activities to the main Cities including Dar es salaam, Tanga, Arusha Dodoma and others too depend from Kiteto.

Exceptionally, investments in processing industry for production of products derived from livestock by-products such as milk, hide, horns, meat and so much more is best to venture.

*Livestocks right are Goats and left are Cattle at Kijungu Ward in Kiteto District.*

## 2. PROCESSING INDUSTRY IN AGRICULTURAL PRODUCTS.

Being privileged in farming produce of cereal crops (maize total annual produce is 155,636 tones, Pigeon peas total annual produce is 18,358 tones, beans total annual produce is 1,382 tones) and oil crops like Sunflower total annual produce is 37,397 tones, makes our District money-making in agro-processing industry for production of maize flour, sunflower oil, chocolates, biscuits and animal feeds.

*At left above is Sunflower plants and rightward is Maize both crops are produced for commercial motives and foodstuff.*

*Pigeon peas plants for business purposes.*

### **3. INVESTMENT IN MINING SECTOR.**

Existence of minerals such as Ruby, Redganet, Greentormaline, Rhodelight, White quartz in our District is ideal to determined investors in the well-paid deal of extractions of deposits.

*Minerals found in Kiteto Rubi, Redganet, Greentormaline, Rhodelight*

### **4. INVESTMENT IN FOREST SECTOR.**

Naturally we have been endowed with precious and rare plant specious on earth to date namely Dalbergia, Melanoxyton (Mpingo), Genus pterocarpus (Mninga), Acacia albida (Mtondoro), Mkindu, Acacia Abyssinica (Mlama), Vachellia abyssinica

The international recognized SULEDO community forest reserve it is the first of its kind in Africa because of unique plants diversity where as researchers, tourist, monitored lumbering, bee keeping and so on are exceptionally encouraged for scenery vacation and business too.

*All 3 photographs are for International recognized SULEDO Forest reserve found which is jointly to 3 Wards of Sunya, Lengatei and Dongo.*

## 5. INVESTMENT IN TOURIST INDUSTRY.

Again our District is full of animals found in Wild Management Area including INDEMA-WMA, MAKAME has the size of 379,362 hectares as the habitat of animals like Antelopes, Hyena, Giraffe, Elephants, Buffalo, Wildebeest, Leopard, Lion and many others .

*From left hand side are the pride of Lions and Zebras.*

*From left is the heard of Buffalo in the bushes feeding and right ward is the Hyene*

This zone is essential as a premier attraction for tourists in hunting (*for the moment is restricted until further notes from the Government*) but photograph tourism is allowed, hence rare animal species like Generuk, Crested Guinea Fowls and Oryx which in other African States are in extinct point except to us are plenty in numbers.

*The rare Antelope of Generuk to the left and Oryx to the right*

*From left hand side are flock of rare Crested Guinea Fowl, Girraffe, Zebra and an Elephant*

This reserve is community based reserve and has 4 blocks for hunting which are Irkiushbour, Talamai, Maasai, EAST AND Maasai west-Naibourmurto.

Hotels, Lodges, tourist transportation facilities and so much more are vital to promote further investment.
